## KS4

Introduces students to the specialist knowledge and skills needed to work in various care settings. Underpinning the qualification is a focus on the rights of individuals, person centred values, effective communication and how to protect individuals in health and social care settings.

Topics studied:

- Human life span development
- Health and Social Care Services and Values
- Health and Wellbeing

### Experiences

- Opportunity to carry out their own research and analyse it
- Developing oracy through debates
- Complete further study units through Open University and FutureLearn
- Opportunities to attend wider experiences, such as the 'restart a heart' day at Staffordshire University

## KS5

Our Cambridge Technical in Health and Social Care allows students to develop their skills and knowledge in preparation for further study or the workplace. Students apply their skills and knowledge to offer appropriate care and support and build positive relationships to meet the needs of those they are working with.

Topics covered:

- Anatomy and physiology for health and social care
- Infection Control
- Public health
- Building positive relationships in health and social care
- Equality, diversity and rights in health and social care
- Health, safety and security in health and social care

### Links to CHARACTER

- Develop literacy skills to ensure life-long learners.
- Use knowledge and skills to refine our understanding of key concepts such as tolerance and emotional intelligence.
- Build self-esteem and confidence through written work, debate and presentations.
