

20th March 2017

Dear Parent/Carer,

Catering Service

Staffordshire University Academy is pleased to announce that our catering service, currently outsourced to Chartwells, is being operated and managed internally as of Monday 3rd April 2017. Following recent parental and staff surveys sent out during the autumn term, the academy appreciates your constructive feedback and has made the decision to self-operate the catering service. Our main aims are to reduce the cost of consumables, increase the quality of produce and offer a wider variety of options, all of which were deemed most important by our parents, carers, staff and students. This is a positive move forward for us and is greatly welcomed by the academy as we wish to provide our students with an overall improved break time experience.

Copies of the new menus, which will be updated termly, can be found on the academy website by visiting www.suacademy.co.uk under the 'students' tab. Menus for the rest of the academic year are enclosed, inclusive of pricing for consumables.

We look forward to launching the new catering service in April and hope that our students enjoy what we have to offer!

Yours sincerely,

Miss Kirkham
Estate Coordinator
