Dear Parents/ Carers

Re: Academy closure due to lack of heating

Due to unforeseen circumstances I have taken the exceptionally rare step of having to close the academy this lunchtime on health and safety grounds, due to the heating system not working. The temperature in many of our classrooms is as low as 11 degrees centigrade. This temperature is not conducive nor safe for our students to learn.

All students have been offered the chance of a hot meal before leaving the site and have been allowed to wear their coats in lessons. Where students may not be able to access their homes we have also provided a warm area within the academy for them to stay until 2.55pm.

A heating engineer is due to be with us at some point today to rectify the situation. Please check the academy website / Parent App for further details but we anticipate being open as normal tomorrow.

Many thanks for your continued support, we are incredibly sorry for any inconvenience this may have caused you. The safety of our students and your children is always paramount.

Yours sincerely

Mrs R. Hillier
Principal
