

COVID-19 Update

The Public Health England Local Outbreak Team have confirmed that all of our Y7, Y8, Y9, Y10 & Y12 students are classed as 'close contacts' and as such are advised to isolate up to and including 19th July. The rest of their households do not need to isolate unless the student develops symptoms. Where we know that a student is a **very** close contact of a positive case we have contacted parents and carers to alert them so that they may choose to be more wary of any symptoms.

We would ask **all** students to take lateral flow tests today and tomorrow and report any positive cases to us on 01543 224700 or info@suacademy.co.uk so that we may keep Public Health England informed and identify and alert any other students who are very close contacts.

We have distributed 57 laptops this morning to families who requested these. Our staff continue to deliver their live lessons online via Teams.

We thank all of our students and parents for their support at this time, thank you for the gifts and cards that a number of families have dropped into our reception – they are greatly appreciated!

Team SUA
